

Hanging Basket

The only traditionally styled self watering basket on the market

Hanging Basket

The only traditionally styled self watering basket on the market that has been designed to mimic the shape of a traditional wire basket whilst encompassing an easy fill integral water reservoir.

Unique watering channel makes this basket easier to use than our competitors' versions. The integral reservoir with a capacity of 6 litres means this basket requires only two watering visits.

Complete with a 16" 3 leg galvanised chain. One length separates to enable easy emptying at the end of the season.
